Certification of Workships Contractors B.V. against OHSAS 18001

Occupational Health and Safety is the key for an operational organisation such as Workships Contractors B.V. in what is sometimes a hostile environment such as the Offshore Oil & Gas industry and the Renewable Energy industry.

Keeping the human factor of an operation safe and controlled, within the compilation of the project, vessel and crew is therefore one of the most important goals that a management has.

The safety management system of Workships Contractors has been recently tested by Lloyds Register, our auditors. We proudly announce that we have passed this test with good result, which this certificate is proof of.

It is now up to our shore organisation and the crew on board of all vessels under our management to live up to our own expectations and the expectations of our client Acta Marine Wind Services B.V. and continue to work safely and successfully.

CERTIFICATE OF APPROVAL

This is to certify that the Occupational Health & Safety Management System of:
